中国红鹳科记录 Records of Phoenicopteridae in China

1997 年至今, 中国红鹳科观察记录, 共38 笔确切记录。
There have been 34 reports of the flamingos in China since the year 1997.

It is important to try & get photographs of as many of these birds as possible – as several are probably American & NOT Greater Flamingos (see e.g. the Shaanxi record below)

A. 北京 Beijing

1. 2015 年 12 月 7 日下午, 北京孙河, 亚成 1, 拍摄者米花花。（贾亦飞、Terry 提供信息, Terry 说可能是 David 拍到了两只）（图）。之后该鸟在南海子麋鹿苑出现, 12 月 30 日, Colm Moore 在沙河水库拍到，估计也是同一只。（图）

1 juvenile was recorded by Mihuahua（nick name of a photographer in Beijing）at Sun River, Beijing, Dec. 7. Another birder named David claimed to see and take photos of two the day after(i.e.Dec.8).

孙河的（上图）
B. 澳门 Macau

2. 1994年12月2日，澳门威斯汀度假酒店的澳门高尔夫和乡村俱乐部，1只

1 Greater Flamingo appeared in Macau golf and country club at the Westin Resort, Macau on 2 December, 1994. This record is from eBird. http://ebird.org/ebird/view/checklist?subID=S7230359

C. 新疆 Xinjiang

3. 1997年9月，新疆哈密二堡捕获1只。

1 was caught by locals at Erbao, Hami (42°09'N 93°01'E), Xinjiang in September 1997 (exact date unknown). It was later obtained by Hami Forestry Bureau. It was described as a sub-adult, probably a juvenile. The first record for China. (Ma 1999)

4. 1997年11月，新疆乌鲁木齐，10余只过境，其中1只受伤被救助。

In November 1997 (exact date unknown) a flock of 10 flew past a suburb of Urumqi, Xinjiang. An injured bird among the group was captured and examined. Photographs of the bird while still alive are available and one specimen (the text doesn’t make it clear whether this was a second individual or the injured bird) was kept by the Epidemiological Institute of Xinjiang. Like the Erbao bird two months
earlier it was described as being a sub-adult, probably a juvenile. The second record for China. (Ma 1999).

5、2013年11月21日，新疆石河子大泉沟，皮大帅，1只。（图）
1 on 21 November 2013 at Daquangou, Shihezi, Xinjiang (Pi Dashuai).
See also Birdtalker http://birdtalker.net/report/reportview.asp?id=41006 and China BirdWatch #94.

6、2014年11月中旬，新疆木垒哈萨克自治县黑山头水库，野生动物保护办公室主任温世春，3只。（图）
3 at Heishantou Reservoir, Mori Kazakh Autonomous County, Xinjiang in mid-November 2014, seen by Wen Shichun - a worker at that site.
Also seen at Chinese press with pictures (《火烈鸟现身新疆木垒黑山头水库》:乌鲁木齐晚报作者: 巩亮亮 (图) http://www.xinjiangnet.com.cn/xj/corps/201412/t20141202_4129216.shtml )
Since 1997 it appears that there have also been records from Aibihu (Ebinur Lake), Shawan, Shihezi & Wubao (Ma 2011) and it has been described ‘uncommon’ and a passage migrant by Ma (2011)
Noted as having been recorded in Xinjiang by Guangmei (2004)
D. 湖南 Hunan

7. 1998 年 2 月 10 日，湖南岳阳东洞庭湖，橘树等人，1 只。

Noted as a rare migrant at Dongting Hu by Xiangqui, Liu ed. (2004) who was probably referring to the 1998 sighting.

E. 天津 Tianjin

8. 2003 年 1 月 4 日，天津大港区海滨浴场，1 未成年鸟，Paul Holt and Wang Qingyu.
1 immature at Haibin Yuchang, Tanggu on the 4 January 2003 (Paul Holt & Wang Qingyu) (Photographed).

9. 2014年12月1日，天津北大港湿地，王建民等人，6幼鸟。（图）
6 juveniles at Beidagang, Dagang on the 1 December 2014 with five still there the following day, seen by Wang Jianming et al.

Also seen at Chinese press with pictures (《天津北大港湿地首现火烈鸟 专家称尚不清楚具体来源》(图), 今晚网-渤海早报 http://www.chinadaily.com.cn/dfpd/tj/2014-12/03/content_19019114.htm)
See also Birdtalker http://birdtalker.net/report/reportview.asp?id=46023)

F.陕西 Shaanxi

10. 2005年2月，陕西浐灞生态区，2只。

11. 2009年4月14日，陕西浐灞生态区，1只。

12. 2011年1月10日，陕西浐灞生态区，生态区工作人员，1成鸟（后被证实为美洲大红鹳 later confirmed as P.ruber）。 （图）
1 adult in Chanba Eco-Park, Chanba, Shaanxi Prov. on the 10 January 2011 (seen by workers at the site)(see http://english.shaanxi.gov.cn/channel/print.shtml?/news/photonews/201101/28160_1 for an image).

This individual was later re-identified as a an American (or Caribbean) Flamingo P. ruber (Zhu Lei et al. 2011 also in Sichuan Journal of Zoology Vol.30, No.3, p434.), which therefore I guess is a definite
escape or free from captive. My guess would be that the bird seen a ha site in April 2009 was the same individual.

Also seen at Chinese press with picture (《浐灞生态区惊现世界珍稀鸟类火烈鸟》(图) http://www.shaanxi.gov.cn/0/1/9/46/95119.htm)
